

National disaster response and relief network

Current state

Current state

What is working?

- Government
 - Legislation
 - Mandate
 - Structures
- Civil society
 - Civil structures
 - Resilience
 - Positive intent

What is not working?

- Resource allocation
 - Resources
 - Funding
 - Assets
 - Services
 - Allocation
 - Lack of accurate information
 - No holistic Incident Management System
 - Paper based vs technological solutions
 - Current allocation follows agendas and not needs

Preferred future

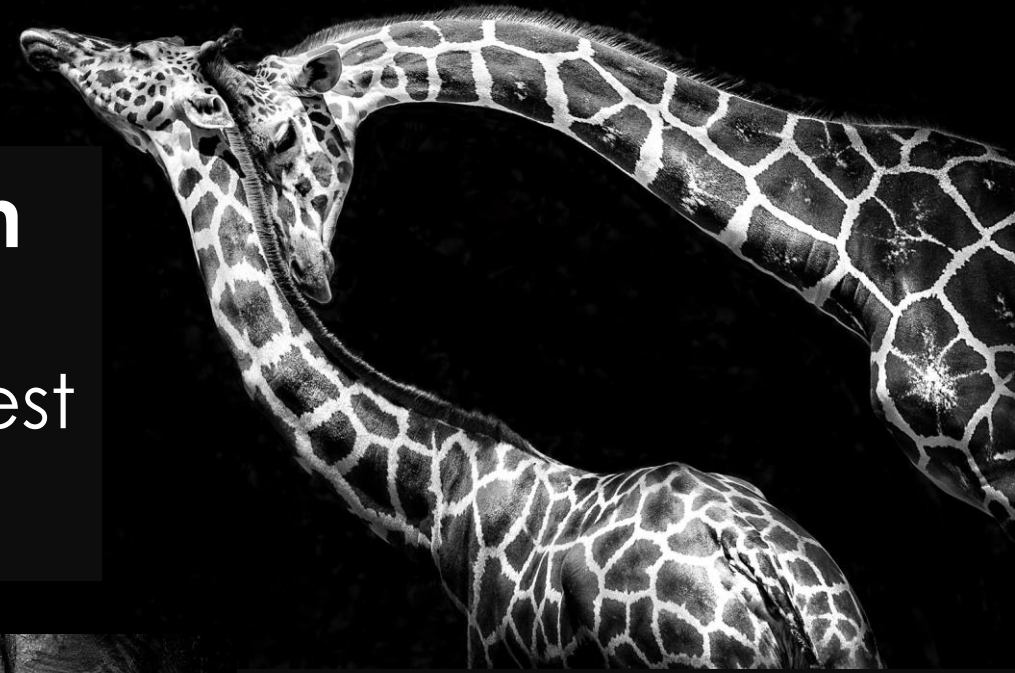

Preferred future

An effective disaster, resilience, and response management capability for the entire South Africa based on Kingdom principles achieved through the contribution of diverse stakeholders from all spheres of society.

Need A

Need B

Need C

Need D

A large flock of birds, possibly starlings, is captured in flight against a clear blue sky. The birds are concentrated in a dense, dark, horizontal band across the upper half of the frame. Below the sky, a stone wall topped with a wire fence runs across the foreground. The overall scene is bathed in a cool, blue light, suggesting a clear day.

Leadership and working groups

Leadership

- Incident Management System and needs mapping capability
 - Lester Sedras - Respond
 - Mkhululi Letsatsi – Heal our Land
 - Colin Deiner – Western Cape Disaster Relief
 - Nkululeko Mthebu – Black Box
- Platform for aggregation
 - Nioma Venter – Dutch Reformed Church
 - Marcus Norden – National Pentecostal Forum
- Steering committee
 - Steward actions
 - Ensure ongoing communications
 - Funding
 - Government relationships
 - Marketplace relationships
