Die organisasie Hospice bedien hulp aan mense in nood in die hele ringsgebied. Dit val op die terrein van die kerk (sterwensbegeleiding, versorging), maar die kerk het nie die infrastruktuur om hierdie werk te verrig nie. Aangesien die organisasie bitter min staatshulp kry, wil die ring graag die projek ondersteun.

Dear Abe

Thank you for the very exciting and encouraging telephone call we received yesterday. I do apologise for not being able to give you all the details you required immediately, but after having consulted with our Manager, Susan van der Linde, I am able to provide a list of our running cost shortfalls.

CATEGORY	ANNUAL EXPENSE	AMOUNT REQUESTED	EXPLANATION
Water and Lights	14 400	10 800	Payments for 9 months
Nutritional Support	44 904	9 200	Top-up for food parcels
TOTAL	59 304	20 000	

We respectfully request that, should we be blessed with this donation, may we use it over a number of months, or would you prefer that we spend the full amount immediately? We will obviously send regular reports on the expenses according to your requirements.

The following few paragraphs give a brief outline of the services Camdeboo Hospice provides. However, if you would like to receive a copy of our full business plan, we would be delighted to forward it to you.

In the rural areas of the Karoo many patients suffering from terminal diseases have no access to appropriate care. Ambulances are scarce, taxi fares are exorbitant and the distances to the nearest public health care clinics are too vast for patients to walk in their weakened condition in search of appropriate care which means that they are usually left to the mercy of their ill-equipped and desperate family and friends for help. This is the gap that Hospice fills – *providing care and support to patients in their own homes.*

Camdeboo Hospice instils a sense of hope in the lives of people in the final stages of HIV&AIDS, Cancer, Motor Neurone Disease and Tuberculosis by providing an essential service in meeting the patients' constitutional right to care and dignity in death. We help them to live the best quality of life possible during their illness and we encourage and support their loved ones.

We have 2 teams of dedicated Caregivers, *20 on the patient care program* and *10 on the Orphans and Vulnerable Children (OVC) program*, who walk from house to house to provide care and support to the clients in their own homes. Our Professional Nurse and Staff Nurse, monitor, encourage, and support the teams, ensuring that our patients are receiving appropriate care. The Nurses travel to Jansenville, Klipplaat, Nieu Bethesda and Aberdeen once a month to supervise the care of the patients, deliver *food parcels* and *medical supplies* and *monitor* the staff based there.

As at the end of August 2012, our registers reflect 239 patients and 266 OVC. We try to restrict our patient numbers to a maximum of 250 in order to allow our nurses and staff the time to provide the *excellent quality of service* for which Camdeboo Hospice has become renowned and appreciated.

Poverty relief is provided to our clients in the form of material support only: each patient receives a basic *monthly food parcel*; OVC receive *weekly supplies of soup and fortified biscuits* and annual supplies of *school uniforms and stationery*; medical equipment is loaned to patients when necessary; medical treatments are provided; blankets and second hand clothing is distributed when possible, etc. The orphans receive m*onthly food parcels* until such time as they receive their government grant.

Support Groups are an important part of our program offering all clients, including the OVC and their Foster Mothers, the opportunity to meet with their peers to discuss problems they may be experiencing. Our Caregivers use these meetings to provide group counselling and support and guests are invited from various government departments to make educational presentations on topics such as the different government grants and how to apply for them, a healthy diet on a low budget, etc. Spiritual support is offered by church ministers. A *light nourishing meal* is served at each meeting.

Palliative Care is often stressful and traumatic. A Professional Counsellor is hired to provide *debriefing* counselling to our Graaff-Reinet staff, empowering them with *coping skills* and *prevent burn-out*.

Camdeboo Hospice employs a total of *40 staff members* who work together to ensure that the communities of *5 rural towns in 2 municipal areas* receive *quality home-based care* and that a holistic program is provided for their children. All clients receive our services at no cost, regardless of race, denomination, age, gender or financial situation.

Thank you, Abe and the Church Board, for giving Camdeboo Hospice the opportunity to explain our services to you and for taking our organisation into consideration for future help to “Share the Care”. We are extremely encouraged by your interest.

Yours sincerely

COLLEEN BUCKLE
