The Christian Care Group and community helpers aim has always been to reach out to all people in desperate need who call for help in our community. It has however not been an easy task due to the Corona Virus pandemic. Fortunately the restrictions have been lifted and we can continue to support and guide the vulnerable and ill.

Ready made meals are delivered to ill and those unable to care for themselves.

Monthly food parcels are made up at Spar and distributed to the needy from there.

We continue to support our local soup kitchen.

Several cases of people in desperate financial need are given support to relieve their stressful circumstances. This assistance has also increased.

The community of Bedford has been very generous in donating cash, blankets, school shoes and socks, knitted baby jerseys, clothing, meat and vegetables to those less fortunate. However due to the pandemic our organisation is still experiencing loss in finances as many find it difficult to contribute financially and at the same time our expenses has excelled because of the growing need and food price increases.

Through the Lords enabling Grace the whole purpose of Christian Care is giving hope and support to His people. Our goal is to continue supporting the community of Bedford, hopefully reaching even more people in need.
